A \$10,000 integrated Home Control installation:

Your experience starts with a consultation, system design, and drawings to meet your needs.

Listen

- Ability to input your shared CD player, iPod, and tuner into a 4-zone multi-channel amplifier and listen through in-ceiling speakers in two rooms and on a outdoor deck
- Includes three keypads to control selection and volumes plus a two-channel multi-tuner and iPod dock

Watch

- Smart wiring, controller, and single remote control for one TV which removes all equipment from within viewing room
- Equipment rack complete with router, playlist software, iPhone or iPad license, and one year internet access subscription

Security

- Upgrade to security alarm system to allow integration
- Smart Code Keyless Entry with deadbolt

Lighting

- Two addressable light switches or dimmers

Programmed Functions

- Good night: Turn off lights, audio systems, locks door, and arms alarm system
- Arriving home: By entering your door code, starts your lighting and music scenes
- Outdoor lights: On at dusk, off at predetermined time
- Single Remote: Works on all devices, the only one you'll ever need

We always finish with a complete demo.
